

Toronto Port Authority – Training Session

Emergency & Security Field Exercise

Sunday October 30 from 0930 to 12:30 EST

The TPA will be conducting an Emergency & Security Field Exercise at Billy Bishop Toronto City Airport. This is a routine exercise mandated by Transport Canada regulations.

The exercise is not expected to cause disruptions to regular airport operations.

Community members and airport users should be aware that emergency response vehicles will be on site. This may cause additional vehicular traffic on Eireann Quay. Passengers are advised to arrive early for their flights as a precaution.
